PERSONNEL ROYAL COMMISSION ON CALGARY COLLEGE

Hon. J. R. Boyle Announces Appointment Pursuant to Resolution of Legislature

TO REPORT ON QUESTION OF SECOND UNIVERSITY

Presidents of Toronto, Dalhousie and Saskatchewan to Make Investigation.

Hon. J. R. Boyle, minister of education, announced today that the order in council appointing a royal commission to inquire into the question of granting degree conferring powers to general university standing to Calgary college has been issued.

The commission will consist of the following: Robert Alexander Falconer, C.M.G., LL.D., LL.M., president of the University of Toronto; Walter Charles Murray, M.A., LL.D., president of the University of Saskatchewan; Arthur Stanley Mackenzie, B.A., Ph.D., F.R.S.C., president of the Dalhousie university, Halifax.

Dr. Falconer, president of the Toronto university, will act as chairman. The commission is appointed pursuant to a resolution of the legislature passed on October 23, 1913, and by virtue of the statute of 1908. A bill proposing to make the Calgary college a university was introduced into the legislature last May by Dr. Boyle of Calgary and the commission will consider the details of the bill.

Calgary college has been negotiating for degree conferring powers for several years past and the question has always aroused a keen fight in the legislature. The majority of the legislature are opposed to the proposal on the ground that the province cannot afford to support two universities. Last year the legislature voted no less than \$100,000 for the current expenditure of the University of Alberta. It is also thought by some that the effect of making Calgary college another university would be to lower the standing of the degrees conferred by the provincial university.

French 1912 exports were valued at \$1,254,924.00.

Children Cry FOR FLETCHER'S CASTORIA

This is Your Guarantee

The Edmonton Portland Cement Company arranges with University of Alberta to take samples of products for testing purposes, thus Assuring Builders that the materials Meets every Test.

Mr. J. B. Griffith, secretary-treasurer of the Edmonton Portland Cement Co., Ltd., has issued a circular letter to architects, contractors and builders in this city and district, in which he says:

"Continuing our policy of guaranteeing EDMONTON—The Certified Brand—Portland Cement, we have arranged to have all cement shipped from our plant tested and certified to by the testing laboratories of the University of Alberta.

"Samples for testing purposes will be taken from each car, before it leaves the plant, by an inspector acting for the University testing laboratories. These samples will be sealed and shipped direct to the laboratory in Edmonton, where tests will be made immediately, and seven days later you will be given a record of these tests.

"All cement should conform to the specifications of the Canadian Society of Civil Engineers, and we feel that you are entitled to positive proof that it does meet the requirements.

"You can, therefore, order EDMONTON—The Certified Brand—Portland Cement with every confidence, as the quality is certified to by an independent laboratory."

E.D. AND B.C. RAILWAY WINS OUT ON APPEAL

Official intimation has just been received in the city that the Board of Railway Commissioners have decided in favor of the Edmonton Dunvegan and British Columbia Railway company in regard to the application of the town of Grouard to compel that company to construct their main line into the town of Grouard.

The Edmonton Dunvegan railway, according to the original plans and specifications, will pass a distance of some miles to the south of Grouard. The town considers that the line should run into the town, but the company pleads that the engineering difficulties are too great.

R. W. Jones submitted a report on behalf of the town and W. R. Smith, chief engineer of the railway. The commissioners had a special investigation made by the Dominion Government Engineer Carr, located in Calgary, and Mr. Carr's report favors the company.

The main line will therefore be constructed as originally intended, but a branch line will be constructed into Grouard connecting with the main line.

TORONTO AD CLUB TO ESCORT LOCAL BUNCH INTO CITY

Queen City Aggregation Will Meet Edmonton Specials at Hamilton.

The Edmonton Industrial association will take two special trains to Toronto convention of advertising clubs next month. Already enough applications have been made for horses, accompanied with deposits, to more than all one train with any degree of comfort, the number now standing at over 160.

It was stated at the association's office this morning that another train would probably be arranged at a meeting of the "On-to-Toronto" committee to be held next Tuesday.

This train may run without any stops to Chicago and from there east to the Chicago and Canada cities. This is said to be desired by some, but others wish both trains to stop and to

Anaemic Mothers Here is Relief!

You can Enrich Your Worn-out Blood and Quickly Renew Your Health With Dr. Hamilton's Pills.

Sufferer of Twenty Years States Dr. Hamilton's Pills are a Real Cure
"I can't remember any time during the past 20 years when my heart wasn't aching. It felt as if I had a great weight on my chest, and it seemed as if all the blood in my body wanted to rush to my head. Thus opens the letter of Mrs. Enoch S. Sperry, of Putnam, P.O., and continuing her interesting statement she says: 'By exertion made my heart beat terrible, and going upstairs caused such shortness of breath that it fairly frightened me. I tell you how I feel today and you can understand what a great cure Dr. Hamilton's Pills have made. I feel strong enough now to work like a man, as far as going up stairs on the run, it doesn't bother me at all. I eat and sleep as any well person ought, and as for dizziness which used to frighten me so much, it has entirely disappeared. Dr. Hamilton's Pills are a wonderful medicine. They helped me, and I know every woman that uses them will have comfort and good health. Refuse anything offered you instead of Dr. Hamilton's Pills of Maudsley and Hutterell, 25 per box at druggists and storekeepers, or the Catherinozine Co., Buffalo, N.Y., and Kingston, Canada."

take the same route from Winnipeg east and south, so that more effective work could be done.

The Canadian Northern will be taken from here for the second time. It is understood, it having been arranged when the first train was given to the G.T.P., that if another train or any extra cars were needed the C.N.R. would be given the business. This will also be settled at the committee meeting next Tuesday.

From Winnipeg the Soo Line will be taken by the first train as far as St. Paul and the Northwestern from there to Chicago. This will be the route taken by the second train also, as it also makes the stops at the cities between Winnipeg and Chicago, and there are two other roads between Winnipeg and St. Paul and several others between there and Chicago, and also a route via Duluth.

Edmonton will be certain to cut a wide swath at the big convention, according to a wire received today from Bruce D. Orser, who is now in the Ontario capital looking after arrangements for the reception of the local excursionists.

Mr. Orser wires that the Toronto Ad club has decided to meet the Edmonton train or trains at Hamilton and escort them in a body to Toronto. What this means will easily be seen. It is understood that delegations will go to the convention from every city of importance in Canada and the United States. The Toronto club will be the big noise and the fact of their coming to Hamilton to meet the Edmonton body should make everybody anxious to take the trip.

Further arrangements are also being made to entertain the local people at every city en route, both east and west of Chicago.

Mr. Orser also mentioned in his wire that the Toronto club wishes to know about how many will come from Edmonton, so that rooms may be secured for them and other arrangements made for their entertainment. A request has also been made to state the number who will be accompanied by their wives.

For this reason and so that they may secure the best berth location, the association requests that reservations for the second train be sent in as soon as possible.

GRANK TRUNK HAS NOT WITHDRAWN APPLICATION ACCORDING TO BORDEN

Ottawa, Ont., May 23rd.—Premier Borden stated in the house this morning that as far as he knew the Grand Trunk Pacific had not withdrawn its application for a bill to amend the act in relation to the Grand Trunk Pacific. He was told in reply to a question from Sir Wilfrid Laurier asking if it was correct that the Grand Trunk Pacific had withdrawn its application. The premier said there had been negotiations but not withdrawal.

The house then took up a bill to amend the inspection and sale act. Mr. Foster explained that the intention of the bill was to include feeds under the regulation of the present act the same as flour.

NEW LIGHTSHIP IS LOST WITH TWENTY-FIVE OF THE MEN ABOARD HER

Halifax, N.S., May 23.—The loss of the new lightship Halifax, No. 19, with all of the 25 men on board, is indicated by the discovery of wreckage and three bodies near Liscomb, 110 miles east of here today.

The lightship was on her way to this port from Paisley, Scotland, where she was built.

News of the lightship's loss reached here today, when Captain Murdoch of steamship Dufferin put into Liscomb, N.S., and telegraphed to the government officials here that his vessel had passed wreckage and bodies off the coast. Some bodies, Captain Murdoch reported, bore lifeboats with the name "Halifax No. 19" upon them.

STUDY SYSTEM OF FARM SCHOOLS IN OTHER COUNTRIES

Hon. Duncan Marshall, Minister of Agriculture, Leaves For Europe.

LOOK INTO CO-OPERATIVE SOCIETY ORGANIZATIONS

Visits to Leading Breeding Establishments in France and Britain.

Hon. Duncan Marshall, minister of agriculture, leaves Edmonton today for the east where he will be joined by Mrs. Marshall and Master Jack Marshall and will proceed to England. They will sail from Montreal on the Megantic on June 5.

Mr. Marshall informed the Capital today that he is going to Europe to study the agricultural schools systems of Denmark, southern Sweden and Germany, and also the co-operative societies and agricultural organizations of European countries. Mr. Marshall will pay special attention to the lines of which the Alberta schools have been founded. Arrangements have been made for meetings with representatives of the departments of agriculture in the several countries which he will visit. In Denmark Mr. Marshall will be met by Mr. Markertburg, livestock commissioner for Denmark. Mr. Markertburg is a brother of Dan Markertburg the well known butter maker of Markerville, west of Innisfail.

In France Mr. Marshall will be met by Commandant Peline, who judged the light horses this year at Edmonton show and who is one of the best authorities on light horses on the American continent. Commandant Peline has just lectured to the Old Country and will introduce Mr. Marshall to many of the best breeding establishments of Percheron horses in France.

In Great Britain Mr. Marshall will attend the Royal Agricultural society's show at Shrewsbury, England, and the Highland society's show at Glasgow, Scotland, and will also visit a number of the most important breeding establishments for Clydesdale horses in Scotland, Shire horses in England and of Shorthorn cattle in both countries. He will also inquire into agricultural institutions in England, Scotland and Ireland.

The minister will return to Edmonton next September.

BECKER NOW PLANNING UPON GROUNDS TO GET STILL ANOTHER TRIAL

New York, May 23.—The conference arranged this forenoon for Charles Becker, convicted yesterday for the second time of the murder of Herman Rosenthal was with his counsel, Martin T. Mellon, and the district attorney, who was said to be the subject under discussion at the conference.

Becker spent a quiet night in his cell in the Tombs and appeared refreshed and comparatively cheerful. He ate a hearty breakfast and then read the newspaper accounts of his conviction. District Attorney Whitman today received the following letter from Mayor Mitchell:

"I have just heard of the outcome of the Becker case. The whole community is under obligation to you. Your work has been splendid."

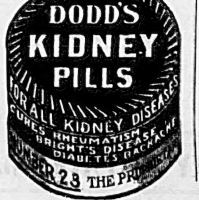

The district attorney. It was learned today, will submit to hand writing experts a number of letters which in letters were written by Becker to the condemned gunmen during their stay in the Sing Sing death house. These letters were turned over to the governor by the wife of "Lefty Lou" Rosenberg, after her husband's death. They passed from Becker to the governor, it is believed, between the leaves of books in the prison library which are permitted to circulate among the prisoners condemned to death.

Although written in a disguised hand, the district attorney believes they came from Becker and is holding them in reserve for an opportunity to use them as evidence against the convicted police lieutenant in the latter's efforts to obtain a reversal of judgment from the court of appeals.

UNNECESSARY TO BORROW EXCEPT FOR THE FUTURE CAPITAL EXPENDITURES

Medicine Hat, Alta., May 23.—Provincial Treasurer C. R. Mitchell, en route to Edmonton, authorities the statement that he and Premier Sifton have concluded sale of provincial bonds to Spencer, Trask & Co. of New York, which will retire all treasury bills out and may prevent the indebtedness cover number of years and making it unnecessary to borrow except for future capital expenditures.

Sydney, Australia, now has a population of 700,000.

"Some time ago I lost my appetite. Some one gave me

BRONKS HIT THE SLIDE SATURDAY

Lost One and Tied Another with Regina Red Sox—Bad Feeling Among Players

Calgary, May 23.—Two more games were thrown away by poor bench management on Saturday by the Bronks, Regina winning the first game by the score of 7 to 5 and the evening game resulting in a 9 to 9 tie. The fans who have been to the Devereaux since the season started have turned against him after witnessing the last three games and the players are all fighting among themselves. The desertion of Percy Ryan, the catcher, on Friday was but a show of the feeling that exists among all of the players.

In the afternoon Kesseling got away to a good start. The Kesseling twirler lost run in the second inning tied the score. There was a real battle until the seventh inning when Kesseling weakened and instead of hitting the first batter Devereaux kept him in the box, the Red Sox putting the game on ice by scoring four runs in the eighth.

In the evening the Bronks had the game won until the eighth, the score being seven to two. Then Devereaux was allowed to finish the inning, four runs scoring. Frink went in in the eighth and the Bronks tied up the score in the ninth but could not win.

The score by innings:
Afternoon game:
Regina 201 000 400—7 5 2
Calgary 210 000 920—5 7 5
Butter, Mahoney, Berger and Sinton; Kesseling and Jones.
Evening game:
Regina 801 102 410—9 12 2
Calgary 800 112 002—9 9 3
Berger and Roth; Gage, Frink and Jones.

Couple Terribly Burned
Moose Jaw, May 23.—Suffering from burns which may prove fatal, William Mickle and his wife were taken to the city hospital. Their house was totally destroyed. An infant child was rescued. Mickle was making a meal for himself after returning home late, employing coal oil to heat the fire in the stove.

TOOK CRIMINAL INDICTMENT TO SHIELD MORGAN

Remarkable Testimony by
Chas. S. Mellen Before
Commerce Commission

AGED FINANCIER'S PART IN GRAND TRUNK TRUST

Mellen Declares Late Millionaire Admitted Active Negotiations by Him.

Washington, May 25.—A dramatic climax marked the close of the sensational testimony of Chas. S. Mellen before the Senate Commerce Commission Saturday, when, with evidence of deep emotion, Mr. Mellen declared that the late J. Pierpont Morgan was cognizant of the Grand Trunk negotiations, on which he (Mellen) was eventually indicted for violation of the Sherman anti-trust act, and that he "took the indictment that belonged to him (Morgan) believing it would have killed the aged financier if he had been indicted."

Intense Feeling
Mr. Mellen, spoke with intense feeling as he recalled his efforts to shield the late Morgan. This turned quickly to a show of resentment, however, as he told how the present J. Pierpont Morgan had suggested a "change in the presidency of the New Haven at which suggestion, Mr. Mellen declared with emphasis:

"I called his attention to the fact that I had been suffering under the humiliation of an unseemly indictment to protect his father."

The crowded court, then listened with intense interest as this closing revelation was given. The Grand Trunk transaction, on which Mellen's indictment was returned by the grand jury at New York, Governor Phipps, chief counsel of the commission asked:

Active Negotiations
"Did Mr. Morgan have anything to do with this negotiation for the exchange of the Ontario and Western with the Grand Trunk?"

"He did,"
"What?"
"He took a very active part in the negotiations."

"What part? Can you tell, if you know?" asked Mr. Phipps.
"I did not know that Mr. Morgan knew there was a negotiation until he came into my office when I had an appointment with Mr. Smithers and Mr. Chamberlain and Mr. North and what he thought they ought to do was to have peace between the New Haven and the Grand Trunk. He told of previous negotiations which he said extended over a period of 20 years (That is the term he used). I suppose it was a long time ago that he had bought a steamship line from them on the understanding he would have the New London and New York from the New Haven Road, and that they never had carried out their agreement."

OLD TIMER LOVES NOT CALIFORNIA LESS BUT SUNNA ALBERTA MORE

A. Cristol, one of the old timers of Edmonton and who has long been interested here, has arrived in the city from Los Angeles, where he is making his temporary home.
He states that all of California, practically, is getting for a peasant year in 1913, when two great war conditions and more than 100,000 men will be held in that great state. The Panama-California exposition will run through the whole of 1914, and the nearest port on the Pacific in the United States to the Panama canal is the Panama-Pacific fair, without a doubt, the greatest the world will ever have seen, will start on May 1 at San Francisco.
Mr. Cristol can't keep away from Edmonton. "He is more in love with Alberta's fair capital now than even when he was one of the comparatively few who in the early days had faith in it. Next year he will be back here from the Golden Gate state, with all its attractions, to stay permanently. The old men of California are greatly interested in the present Alberta situation and many of them will come or send their money here for development purposes."

Dead Baby in Garden
As a result of information received from neighbors, Detective Langan and Johnson called at the home of T. Schwabach, North Edmonton, and after some search in the garden, found a box which contained the body of a new born babe. Coroner Fortin was notified and it is likely that an inquest will be held. When questioned about it, the father stated that the child was born an hour after birth and that he did not think there was anything wrong in burying it in the garden as he was unable to pay for a proper funeral.

Arrested on Suspicion
Notifying a man hanging around the tracks in the vicinity of First street, who appeared to be acting rather strangely, Constable Clarke arrested him. Many gave him a hard stare as he walked in the garden, found a box which contained the body of a new born babe. Coroner Fortin was notified and it is likely that an inquest will be held. When questioned about it, the father stated that the child was born an hour after birth and that he did not think there was anything wrong in burying it in the garden as he was unable to pay for a proper funeral.

Fire Thought Incendiary
A fire thought to be incendiary origin, broke out in the Eclipse saloons, 204 Fraser avenue, early Sunday morning. The fire was quickly extinguished by firemen when W. Oiler, an employee, heard someone call fire while he was in the saloon. The fire was quickly extinguished by firemen when W. Oiler, an employee, heard someone call fire while he was in the saloon.

Children Cry For Fletcher's Castoria
The fireman promptly responded and extinguished the flames in record time. The fire was confined to the saloon and the loss was not estimated. The loss has not been ascertained.

GOVERNMENT DEFENSE BILL INTRODUCED IN SWEDISH PARLIAMENT

Stockholm, May 25.—The government's defense bill, which has been introduced in the Swedish parliament for the annual session, provides for the annual expenditure of 55 million kroner (approximately \$15,000,000) for the army and 20 million kroner for the navy. The new program for national defense includes the construction of eight battle ships of the Sverige type, type of destroyers and also authorizes a new law for defense purposes, which it is expected will be passed by the parliament. This will be borne to a large extent by the wealthier classes.

ACTION OF BOOTH IS COMMENDED BY BIG MASS VICE REG

(Continued.)
ex-Chief Langan stated that he knew of twenty-three houses of prostitution on Jasper avenue and First street; "That whereupon he was informed that the police were in the house and he reported that in disregard of the law he is continually sold in these houses."

"That whereas upon certain streets of the city solicitation is open and rampant."

"That whereas it is commonly reported that in disregard of houses of ill-fame have paid much money to the police for protection."

"That whereas ex-Chief Langan, failing to carry out Commissioner Booth's orders, was immediately dismissed."

"That a large number of citizens assembled in McMahon church on May 24, hereby desire to commend your commissioner for his action in this matter and to urge you to give him hearty support in further investigation and the putting of the police department above even the breath of suspicion."

"In view of the wide and serious charges that are being made at the door of the police we are of the opinion that suspicion will not be allayed and confidence will not be restored until those guilty parties are brought to justice and those innocent are exonerated."

"We, therefore, humbly pray your honorable body that a justice of the supreme court be asked to inquire into all the affairs of the police of this city."

"This motion was carried by a large majority. The action was taken on Saturday afternoon and the names of the signers were: Charles Langan and E. Seymour were dismissed from the force."

"This question came up for a vote many, especially to those dismissed, as it was understood that no one would be dismissed without a hearing. The motion was made at least until the end of the month. Detective Langan has been in the city since his dismissal and has for some time while Seymour has had charge of the morality squad."

"It is altogether probable that further discussion of the subject will take place, but so far no member of the uniformed department has been asked to resign, although it is known that several are slated for the block."

Inspector Burbeck, who has been with the uniformed department since the dismissal of Shute, will once more be placed at the head of the morality squad. Inspector Langan has considerable experience under ex-inspector Campbell. Drill Sergeant Watterton will be named as inspector."

Twenty-one inmates of disorderly houses were arrested by the morality department since Saturday night, this is the largest number arrested in two nights for a long time. Four houses were raided, two on Kinsington avenue, one on Rice street and one on Jasper street.

The first application for the position of chief of police was received by Commissioner Booth on Saturday afternoon. The applicant was Richard Stafford, a well-known local business man. When Mr. Booth was questioned as to whether there was any objection to Mr. Stafford's appointment, he replied: "No I do not think that he will receive the appointment. This is a great railway idea. It is a great railway idea."

Business Section Buried
Vancouver, May 25.—The business section of the town of Atlin, a mining town in northern British Columbia, which was started yesterday by a fire which wiped out 8 o'clock in the morning in the Kerahaw hotel. That hostelry, the Vancouver and Northern hotels, the post office government telegraph office and ten of the most known business houses in the town were destroyed. There was practically no insurance. The loss will aggregate \$100,000 or more.

To Boom British Columbia
Vancouver, May 25.—Vice-president Shaw of the Vancouver board of trade has been in the city for a number of days and in his official capacity will look into the advisability of having placed in the city a large number of British Columbia in London, England, date of all the natural resources of British Columbia.

Start Operations Soon
Vancouver, May 25.—The British Columbia capital will start operations next month in the Tulameen district. Preliminary lease have been taken on Tulameen district, and 861 acres of crown land have been known as the rabbit ranch. The ground is being cleared and thoroughly rich in gold and platinum.

South Africa in 1913 had an output of various products aggregating \$230,452,120 in value.

Children Cry For Fletcher's Castoria
The fireman promptly responded and extinguished the flames in record time. The fire was confined to the saloon and the loss was not estimated. The loss has not been ascertained.

TO MAKE WELL LOW RIVER EDMONTON OFFICIAL B.C.

Peace River Railway Finds no Great Engineering Difficulties Via That Town.

LUMBER COMPANY NOW EMPLOYS OVER HUNDRED

Grand Trunk Pacific Bringing New Part of Road up to Standard.

"Willow River has enough resources around it to become a greater city than Prince George, and you know what that is," stated Bruce Odell, manager of the Willow River Lumber company, of Willow River, B.C., at the King Edward Hotel, Saturday.

Mr. Odell has just arrived from a flying trip east and is on his way to the new G. T. P. town, where his company is putting up a large lumber mill, which already employs over 100 hands and will employ over 200 before the end of the year.

Another interesting statement he made was that the latest indications were that the Peace River extension of the Pacific Great Eastern railway would go north from Willow River instead of Prince George, as the engineering difficulties would not be as great.

Willow River is about 25 miles northeast of Prince George, on the main line of the G.T.P., and on the Peace River, which is a tributary of the Peace River from Prince George to the Peace River country, which the new line is designed to tap. To go south from Prince George would mean touching Willow River, the P.G.E., which is a subsidiary of the G.T.P., would have to cross the Peace River, and the present G.T.P. main line. It would also have to build up the same side of which are for the lumber and bridge. Mr. Odell states that the impression a good many people hold is that it will leave the Prince George-Vancouver line of the P.G.E. just south of South Port George, on the east side of the Peace River, and follow it to Six Mile lake, then go across to the other watershed about a mile and half to Willow River, where the road would cross about six miles to a very easy crossing of the river.

"This offers a great engineering difficulties, it is said, while any route on the other side of the Fraser would be a much easier one. The Willow River route would make that town the first place on the G.T.P. touched by the road to the north country, and put it in much the same place with regard to the country tapped as Edmonton is now to the Peace River country in British Columbia."

Three rivers converge at Willow River: the Salmon from the north, the Peace from the south and the muddy Fraser from the east and west. All of these streams run through country of great fertility, and the timber is of the finest timber, and will provide wages and means to float the timber down to a great point, which will be the account other companies besides Mr. Odell's will put in huge mills to save the timber and the lumber and the capitalists heading one of them. The Willow River company is backed by Canadian and American money.

West of Willow River, on the other side of the Fraser, and south along the Peace River, are enormous beds of good coal. The Willow also has tremendous potential wealth in "white coal," or water power, which Mr. Odell says will be developed in the near future. The greatest industrial center on the G.T.P. in central British Columbia, because it is in time of a transportation, raw materials and markets to the north, east and west.

"It is certainly doing well in bringing that part of the road between McRidge and Prince George up to the standard of the main line. There has been some trouble lately with land slides, being a new road, but a great deal of money and effort has been expended and from now on they will probably be able to give a first class service. This is a great railway idea."

DOMINION BUFFALO HERD AT WAINWRIGHT NUMBERS 1,500 HEAD
Ottawa, May 25.—The Dominion Buffalo herd at Wainwright, Alberta, is increasing so rapidly that the government now has more than 1,500 animals. The herd was started several years ago there were only half this number and no less than 152 were added by natural increase during the past year alone. This information was given by Hon. Dr. Roche, minister of the interior, during the discussion of the bill to increase the number of animals.

However, the attempts of the government to propagate reindeer have not been so successful. Fifty were secured from Labrador a few years ago through the assistance of Dr. Willard Grell. They were taken to Fort Smith, in the Peace River country, but 17 were lost in transit, and others were lost in a stampede caused by the annoyance from flies. The government has seven left. Dr. Roche said they had not multiplied.

For Saskatoon Festival
Moose Jaw, May 25.—A special train of eight coaches containing 440 people left here last night for the Saskatoon festival. Of this number there are 60 competing for the children's choir contest and 210 adult singers. The mainder are taking in the provincial musical event.

There are 210 makes of autos on the British market.

Grand Duchy of Baden now has 2,142,123 inhabitants.

Fort Erie, Ont., is to have an auto factory.

"TIZ" EASES HOT, SWEAT, AND STIFF FEEL

No puffed-up, chafed, tender, sweaty feet—no corns or callouses.

When your hot, tired, aching feet feel like paving blocks; all puffed up, chafed, sweaty and smelly; just get from any drug store a 25-cent box of "TIZ," treat the genuine, and begin at once to enjoy real foot comfort. No more sore, burning, tired feet or more pain in corns, callouses and bunions; your shoes won't feel tight and your feet won't feel hot, sore, hurt or chafed and swollen. "TIZ" is great—glorious. Don't disappoint your poor, suffering feet by accepting something "just as good," but get "TIZ."

LONG SHOT WINS 2.30 TROT PAYS BIG MONEY BETS

(Continued.)
entry ran a nice race and was followed by Sporting Life, the old timer on the track, and Chilton Tracer who was third. The also-rans included well known horses as Marcus, Wassail and Lady Rembrandt.

Oil Stock Exchange
An Oil Stock Exchange is to be organized in Edmonton in the course of the next day or two. The need for such an exchange has been made itself. It is among the men dealing in oil stock and the exchange will be of great assistance to the oil-buying public.

Conditions have been far from ideal in regard to the manner in which stock has been sold in this city since the boom began. It is a common sight to see two or three different prices marked on each stock.

The directors will see to it that all the stocks listed on this exchange are sold at the same price. They will also issue certificates of incorporation, capitalization and authentic information as to leases, and the opinion of a competent lawyer of the exchange will be welcomed both by the public and the reliable brokers.

OIL FIELDS NORTH OF EDMONTON TO BE DEVELOPED AT ONCE
Edmonton may soon be in the throngs of an oil boom greater than the one now being experienced in the southern part of the province. A geological survey was made on Saturday that the directors of the Fort McKay Oil and Asphalt Company, who are in charge of the drilling of the wells at Fort McKay. The well is already drilled to a depth of 500 feet and is now being put in good shape to resume drilling immediately. The bottom of the well is now in the Medina rock strata, which is the opinion of a competent geologist. It lies immediately on top of the high grade heavy oil.

There are already three wells on the company's property, but it is intended to push the work on the deep well, and to which the herd was secured several years ago there were only half this number and no less than 152 were added by natural increase during the past year alone. This information was given by Hon. Dr. Roche, minister of the interior, during the discussion of the bill to increase the number of animals.

However, the attempts of the government to propagate reindeer have not been so successful. Fifty were secured from Labrador a few years ago through the assistance of Dr. Willard Grell. They were taken to Fort Smith, in the Peace River country, but 17 were lost in transit, and others were lost in a stampede caused by the annoyance from flies. The government has seven left. Dr. Roche said they had not multiplied.

For Saskatoon Festival
Moose Jaw, May 25.—A special train of eight coaches containing 440 people left here last night for the Saskatoon festival. Of this number there are 60 competing for the children's choir contest and 210 adult singers. The mainder are taking in the provincial musical event.

There are 210 makes of autos on the British market.

Grand Duchy of Baden now has 2,142,123 inhabitants.

Fort Erie, Ont., is to have an auto factory.

WESTERN CANADA MAY 25th Electric Week In Edmonton MAY 30th

A Current of Economy Charging Our Electric Bazaar
TUESDAY, "ELECTRIC WEEK" IN EDMONTON, becomes a positive happening. With plenty of "to-do," our little shop devoted to the publicity of Electric helps for the Home and Office makes its bow for your approval of its feature display! Equally to those familiar with the displays of the Electric shop and those not, much that is new will present itself.

"Hotpoint" Family Are To Be Here
So are other honor-brilliant appliances for busy folks of today. Your visit here should be first and foremost in your Tuesday Calendar. Reductions in price will be the signal for immediate action on the part of hundreds who are ready for new Electric accessories.

Many Devices Charged Less
"Hudson" Electric Iron. Regularly \$6.50. Special, each, \$5.50

Ha! It's Pineapple Week Next
Devoting A Week to the Special Display and Sale of Mellow Florida Pineapples. A Whole Carload to Arrive for Us Tuesday

S MACK! JUICY FLORIDA PINEAPPLES!—YOU
know them—course you do, precious few who could skip such rich, rapid fruit and be happy. And a carload's coming—very bouncing big pineapple a prize from the terraced Southern Fruit Farms,—telling of careful rearing by calico-cooled under gracious skies.

Cheap as Canadian Fruit!
During the Special Sale Week these pineapples will be very little priced for their worth. As delicious as anything ever invented for preserving,—with rhubarb, for instance,—or for fresh desserts. Surely a goodly supply for your household,—for it's not an every-day affair this chance.

Extra Fancy Florida Pineapple, each 22c
per half dozen \$1.25
do per dozen \$2.40
per two dozen \$4.70
Fresh Strawberry Rhubarb, 7 lbs. 25c

FLOOR THREE
Hudson's Bay Cretonnes and Chintzes
THESE ARE DESIGNED TO CREATE FOR THE HOME and the Home all that is appreciable. This intention is shown in the elaborate nature of our sections for your pleasure in choosing.

English Cretonnes—Elegant!
That is a curtailed description of them,—but meaningful. These are in fast colors and cheerful, yet of that essence of cheer which seeks more to gratify its simplicity than its show. We have them for Castle and Cottage—both.

Draperies of Many "Feathers"
We do not mean many draperies "of a feather,"—for these do not flock together here. We have selected with an eye to variety, that you may have an interior draped in an individual tone.

800 Different Designs
None which are not good,—scores which are more than good,—better,—excellent! The prices are, per yard \$3.75 down to 10c
DIAPHRAGMS—FLOOR THREE

NEW VALUATION OF WOMAN WANTED.

The world places an inordinate value upon beauty—especially beauty in woman. Therefore the woman's haunting terror of losing whatever dower of good looks Nature gave her, and her vast expenditure in the endeavor to hold or retrieve it. Bernard Shaw, in a recent lecture on the economics of art, addressing himself to women of the theatrical profession in particular, compares them to the fishmonger's stock in trade on market day. The price is high at one period of the day; after that, because fish will not keep, it is almost given away. "You have to consider whether you will keep, and that is a serious question to the woman," says Mr. Shaw. "When she is young and pretty she is salable, and will be well paid on the strength of her good looks. In a few years she gets rather into the position of the fish. She is given away."

What is emphatically true of the women of the stage who have no asset but their beauty is true in a lesser degree to women everywhere. When they are young they are matrimonially salable; they are also preferred industrially. The pretty girl has twice the chance to secure a position that a homely one has, whereas it makes no difference to a man if he is ugly as Caliban. She will hold her place against blunders and stupidities that would cause the swift discharge of the other. The woman in any industrial or professional employment fights for her complexion and her figure as a mother for her child. "Why will you color your hair when it would be so much prettier if you would let it alone?" demanded one sister of another. "Because I dare not leave it alone. I should lose my place. The firm would realize I am growing old."

There is something wrong with such a state of affairs. A woman in the social world is not tossed into the discard because she has felt the touch of Time. Most of the actual leaders of society are women considerably past their youth. Those women who have achieved distinction have almost invariably done so after what we call middle age, giving the world the ripened fruit of experience and knowledge. Why must woman lose her value in the economic field because of the fading of youth and beauty? Men resented the misquoted remark attributed to Dr. Osler, which consigned them to oblivion at sixty; why should not women resent being tossed into the dustbin as "unsalable" before even that age?

What is to become of the human article when it is a drug on the market? Is it not pure wastefulness of human energy that makes it regarded as a drug? There is a great deal that is useful and vital in the woman who is past her youth—unless she has relied on making an early sale of herself. The women's organizations which have assisted so materially in general uplift, and which are composed of women within or past that somewhat indefinite period we call middle age, are proof that the nation cannot afford to disregard the understanding and ripe judgment that comes of woman's later years.

That the feminist movement may eventually work a revolution in the attitude of art and industry toward the woman, and that the present inordinate value set upon youth and freshness may be replaced by a truer valuation, is the great hope of these who are watching the demolition of old standards with something approaching dread. We can forgive the feminist intentions which W. L. George furnished the Atlantic, that is one of the things proposed. They mean to alter man's point of view, so that the "charm value" of women will no longer be paramount to any other. Convention, "nothing but petrifaction," according to Mr. George, which makes woman desirable on account of the marketable value of her personality, must be overturned.

TO CREATE A MONOPOLY.

To give one Canadian company a monopoly in the Canadian market was the frankly admitted purpose of one of the many tariff increases announced by Hon. W. T. White in his recent Budget speech. Mr. White was quite open in his statement that it was believed that a particular tariff change would enable one company to sell all the caustic soda required in Canada.

Until Mr. White got into his High Protectionist stride as Minister of Finance, caustic soda and hypochlorite of lime were admitted to Canada duty free. Without any tariff protection one Canadian company was able to supply one-third of Canada's caustic soda requirements. But that wasn't enough. With a duty levied upon these products the company believed it could supply not merely one-third of the Dominion's requirements but the other two-thirds as well. So the company whispered to the Finance Minister and the thing was done. Duties were imposed and Mr. White frankly admitted that with the aid of the duty the company would probably be able to furnish the full Canadian supply of caustic soda.

Put in another way, the Borden Government, through Mr. White, has legislated to give one company a monopoly in the Canadian market. The Government has used its power to give monopoly privileges to one group of its High Protectionist friends.

To create a monopoly in caustic soda manufacture may or may not be a very serious thing in itself though it is certain that the tariff change will bring an increase in the price exacted from the Canadian people for this particular commodity. But it is a serious thing when it is frankly admitted by the Government's spokesman that the tariff is revised upwards for the express purpose of giving one company a monopoly. Inevitably, the maintenance of a High Protectionist tariff fosters monopolies and mergers and trusts and under these circumstances, to establish and enforce such a tariff is bad enough; it is infinitely worse when there is the bold admission that the tariff is increased simply and solely for the express purpose of enabling friends of the Government to have the home market as a special profitable preserve for themselves. If there were no other proof, this one incident would be sufficient in itself to show that the present Government is a Government with which the desires of Special Interests take precedence over all else, to the detriment and loss of the Canadian people.

PROPOSES WATER ROUTE TO PEACE RIVER DISTRICT

Resident of North Advises Vancouver Urge Same on Government.

SAYS EDMONTON NOW HAS THE ADVANTAGE
 Alberta Legislature Realizes Importance and This City Gets Benefit.

Vancouver, May 25.—Charles Hildebrandt, intends to take before the laid committee of the Vancouver board of trade a proposal that efforts be made toward getting the provincial government to construct a few waterways, which will give a down stream haul into the heart of the rich interior and the Peace River country against an upstream pull necessary from Edmonton.

The visitor has been a resident of the district and is well informed as to its possibilities. Either by a series of season roads where portages are necessary, or the use of a tramway, which latter he says would be the cheaper, both at the beginning and the end until such time as the Pacific Great Eastern railway is built, it is possible to transport freight by water into the heart of the Peace River district. At present Edmonton has almost a monopoly of this valuable business. The Alberta government realized its value and spent money making the necessary connections so that freight might go into the district by water. Until British Columbia sees the P. G. E.

Terribly Afflicted With Lame Back.

Could Not Sweep The Floor.

When the back aches and pains it is almost impossible for women to do their housework, for every move and every turn means an ache or a pain.

Women are beginning to understand that weak, lame, and aching backs from which they suffer so much are due to wrong action of the kidneys, and should be attended to at once so as to avoid years of suffering from kidney trouble.

On the first sign of anything wrong with the back Doan's Kidney Pills should be taken.

"They got right to the seat of the trouble," Mrs. Wilford Jolicoeur, Nouvelle, Que., writes.—"I take pleasure in writing you using Doan's Kidney Pills. About three years ago I was terribly afflicted with lame back, and was so bad I could not sweep my own floor. I was advised to try Doan's Kidney Pills. I only used three boxes, and I am as well as ever. I highly recommend these pills to any sufferer from lame back or kidney trouble."

Price, 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Millburn Co., Toronto, Ont.

If ordering direct specify "Doan's."

LISTERINE is a daily necessity for a mouth-wash, besides being an antiseptic. Teeth and gums are maintained in perfect condition if Listerine is used constantly. The mouth should invariably be kept free of bacteria after the teeth are brushed. All Druggists Sell Listerine. LARGEST PHARMACEUTICAL CO., Toronto, Ont.

completed, or connects up her waterways, Edmonton will continue to have the advantage over this city in Mr. Hildebrandt's opinion.

Portages Are Short

The first portage that is encountered out of Port George is eight miles from Glacine lake to Summit lake. From Summit lake to Macleod is a distance of 65 miles by water. From Macleod to Elbow Junction is a waterway of 115 miles and then 74 miles to the Peace River-Hockey Mountain portage. This is a total distance of 235 miles.

Mr. Hildebrandt says the portage of the Rockies in the Peace River may be overcome by an aerial tramway of 15 miles. He admits that some parts of the waterway must be slightly dredged, but this would be small expense comparatively. Mr. Hildebrandt says that all motor cruisers capable of carrying 20 tons and 10 passengers could make the trip with a scow in two and a half days and including a few hours necessary in loading and unloading, could make two trips a week. He has figured out that with an investment in cruisers and a scow of \$75,000 there ought to be a return of \$75,000 during the five months navigation would be open. This figure to carry both freight and passengers at a great deal less rate than they can go in from Edmonton. Figuring that the expenses would be one-half, there would be left a good profit on the year's business. Generally describing the situation Mr. Hildebrandt says:

Spent Millions. "Having traveled several times through the Peace River country and being personally interested in this part of the Dominion, I can say the efforts of the board of trade concerning the trade of the Peace River district has always my special interest. It seems that the wholesale houses, merchants and manufacturers of Vancouver up to now have not been fully aware and conscious of the high importance which the Alberta merchants are attributing to this district. It is being a fact that many millions of dollars are being spent each year from the eastern side of the Peace River. Hundreds of teams bringing in settlers' effects, all kinds of merchandise and supplies could be counted on the road from Edmonton to Peace River Crossing each day but water."

"To only mention a few facts it may be stated that the Alberta Marshall Wells company has taken financial interest in a hardware store in Ground (Lester Slave lake) and is further interested in a trading concern in the Peace River country possessed of seven branch stores throughout the Peace River district. The same Alberta Marshall Wells company has already invaded British Columbia in making up hardware stores in Fort George. Other wholesale houses of other lines of business are equally interested in the trading concern mentioned above.

High Prices. "Impartial circles in the Peace River country are, therefore, inclined to say that the Vancouver wholesale houses are not quite alive to their interests and not up-to-date to the possibilities which are offering them in this immense territory."

"After staying more than one year in the Peace River country, being fully instructed as to the difficulties incurred in going into that part of the country and my advice can, therefore, be accepted as coming from an expert. The difficulties in going into the Peace River country were the load roads and the high charges for tickets on steamers and for teams, etc. Tickets from Athabasca Landing to Hudson's Hope were never cheaper than \$50 to \$80 apiece. In order to get the trade of the Peace River (territory in the province of British Columbia) special arrangements seem to have been made by the Grand Trunk by Edmonton shippers in order to bring the goods in by waterway at a rate of not more than 1 to 3 cents a pound. This fact is being published in daily Edmonton newspapers and it is showing clearly that the Vancouver merchants have to expect from the energy and smartness of the Edmonton traders.

Direct Line Needed. "Even considering a railway freight on the new Edmonton-Duvigneau line, it would not be possible to have tickets cheaper than \$50 to \$80 apiece and freight not less than 5 to 6 cents a pound from Edmonton to Hudson's Hope. But a direct shipping line is absolutely indispensable to the Vancouver trade, a line going out from the nearest railway station of the Grand Trunk to the Peace River, doing away with all the inconvenience of general wagon road, doing away with the high charges for using the stubble, for meals and food which are unavoidable (and unknown to those who are not accustomed to travel in the north). This direct shipping line can easily be arranged via the Glacine portage, the nearest railway station to the Peace River from the west side of the Rocky Mountains, using as much as possible the existing waterways, lakes, rivers, etc.

Considering a rate of \$1.50 to 2 per hundred pounds from Glacine portage to the Rocky Mountain portage (Hudson's Hope) and \$1 to \$1.25 from the Rocky Mountain portage to Peace River Crossing, a through freight rate (Glacine portage to Peace River Crossing) from \$3 to \$3.50 might easily be arranged.

Downstream Chaper. "Considering the circumstance that a downstream going freight can any way be handled much cheaper and faster than upstream freight (Peace River Crossing-Hudson's Hope), it would doubtless be already today possible to the Vancouver merchant to compete successfully with the eastern rivals.

"The longer the Vancouver mer-

chants and manufacturers are waiting for the railway connection the more they lose of the field and competition, and there is no reason at all to wait upon the opening of the Pacific Great Eastern railway. It seems easy to arrange a special freight rate from the Grand Trunk line via Prince Rupert. If a regular service is installed, the settlers will be glad to pour into the Peace River country from the west side of the mountains, in saving of time and money and inconvenience incurred by coming in from the east side.

Would Come via Panama.

"Of course advertising would have to be done throughout the United States. With the opening of the Panama canal, this advertising would have to be extended to Europe in order to get the people travelers and settlers right through to Vancouver. I might draw the attention of the Vancouver merchants, wholesale and retail, to the fact that a through ticket to Vancouver and San Francisco from the European continent might only be a few dollars more expensive than a ticket to the eastern Canadian ports."

MRS. BOOTH ASSAILS U.S. PRISON CRUELTY

New York, May 25.—Mrs. Maud Ballington Booth of the Volunteer Prison League and "Hope hall" work for discharged convicts called forth applause in an address at the Free Synagogue in Carnegie hall when she lauded the good results of the honor system in prisons.

"The old system of cruelty and barbarity, which has been in vogue so many years, and which is a disgrace to our civilization, makes for criminality," she declared.

Dr. Stephen Wise introduced Mrs. Booth and Thomas Mott Osborne, who spoke in his experience of a week as an inmate in Auburn prison.

Ramsey's Anniversary Furniture Sale

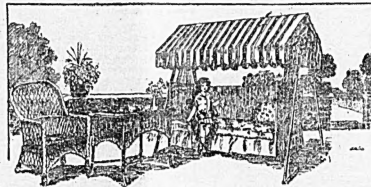

FURNITURE DEPARTMENT, 11 JASPER AVENUE EAST

Tuesday will be the first anniversary of the opening of our furniture store. Edmonton people probably remember that last May we purchased the Campbell Furniture Co. and opened the place as Ramsey's Furniture Department with a great sale. The result was several days of the fastest selling of Furniture that Edmonton has ever witnessed. Progressive businesses always strive to do more business each day than on the corresponding day of the preceding year. That is why the public is often treated to special price reductions for which there may be no apparent reason. This time we have a big program to go up against. We've got the big opening sale days to equal—the result is an Anniversary Sale of two days, Tuesday and Wednesday, with big reductions on our already low priced goods.

A GRAND OPPORTUNITY FOR JUNE BRIDES

June Brides will do well to take advantage of this sale. First quality furniture will be on special sale at reduced prices—all furniture of dependable quality, every article fully guaranteed. If you are not yet ready with your home we'll store your purchases in our warehouse without any charge for the service and deliver when you will be ready. Here is a partial list of the bargains:

SOCIAL AND PERSONAL

THE GAY WORLD.

Mr. Roland Stuart has returned home from Calgary.

Mr. Justice Beck is expected home from Leithbridge on Tuesday. He is improving.

Mr. John Somerville, senr., who has been spending the winter in Southern California, is expected to return home next week.

Dr. Eldon Jamieson left for Winnipeg Saturday to attend the convention of the Canadian Dental Association, to be held on Monday, Tuesday and Wednesday of next week.

Dr. and Mrs. Evan Green, South side, have sailed from Montreal on the 20th Inst. on the "Lettitia," a Donaldson boat.

Mr. Samuel Lucas, Hitchen, England, who has spent the past week the guest of his son and daughter, Mr. and Mrs. Christopher Lucas, South side, left this morning for Winnipeg to visit his daughter, Mrs. R. P. Thompson, for ten days, before sailing for home.

Miss and Madame Hildeau, who have returned from their honeymoon trip to Banff moved into their flat in the Zella apartments, South side on Saturday.

Colonel and Mrs. Griesbach, who have had such a delightful visit with Major and Mrs. Griesbach, leave on Tuesday for the East, en route for England, there to spend the summer.

A jolly little tea party at the Selkirk on Friday afternoon included Mrs. J. K. Connolly, Mrs. Arthur Murphy, Miss Keweenaw, the Margaret Hinton Co. and Mr. O'Callaghan. Afterwards they went motoring.

Meess, Morris, G. R. F. Anderson, Gibson and Woodman have taken a flat in the west end of "Westwood."

Dr. and Mrs. D. Harrison have built a bungalow out at their camp at Cooking Lake this spring.

Ladies are reminded of the at home to be given by the Swift Canadian company on Wednesday afternoon, to the members of the Consumers' League and their friends. This will be a most interesting gathering for all ladies interested in the high cost of living and a pleasant and profitable time is looked for.

Mrs. Torbert entertained a few friends at her home Friday afternoon in honor of her friend, Miss Keeling. The party

Thought She Would Go Mad WITH HEADACHE.

In all cases of headache the treatment should be directed to remove the cause, for with the cause removed the headache vanishes for all time. Headache powders just relieve for the time being, but what is necessary for a permanent cure is something that will go right to the seat of the trouble. For this purpose it is impossible to find a better remedy for headaches of all descriptions than Burdock Blood Bitters, acting as it does on every organ of the body to strengthen, purify and regulate the whole system.

Mrs. Abbie Bowman, Hamilton, Ont. writes—"I have suffered terribly with my head for weeks at a time till I thought I would go mad. A friend advised me to give Burdock Blood Bitters a trial, so I got a bottle and found relief. I have used four bottles in all and I am glad to say that I have had no more headaches since. I would advise all sufferers to give it a fair trial."

THE NEW METHOD WET WASH

Has been a big help for THOUSANDS of WOMEN in Britain during the past year. HAS IT HELPED YOU? Why not try it next week and see what a great benefit it is.

included Mrs. Muir Edwards, Mrs. Woodhead, Madame Somers, Mrs. Lehmann, Mrs. Ashworth and Mrs. Broadus. The party was visited by the Beaver House chaplain, J. D. E. who came over from the King Edward school, having attended the Empire day celebration there.

Major and Mrs. Griesbach received Friday for Col. and Mrs. Griesbach. Mrs. Justus Wilson poured tea and was assisted by Miss Pittman.

Mrs. Dawson received Friday for the first time since her return from abroad. Her two daughters, Misses Jeanne and Helen, received with her and Miss Dawson poured tea.

The Hon. Mrs. Groveson and her cousin, Miss Stuart Worley, were the guests of the Women's Press club on Saturday afternoon. Mrs. Groveson has come to Canada on behalf of the Colonial Intelligence League of which she is chairman. The organization has for its object the settlement of the educated women of England in the overseas dominions.

On Saturday night Mrs. W. J. McNamara entertained at a box party at the Empire in their hall. Yesterday they motored out with Col. and Mrs. Saunders to "The Mount," Mr. and Mrs. Brennan's ranch at Dover Bar, where they had luncheon. In the afternoon Mrs. Saunders entertained at a tea. Afterwards they visited at Governor's House.

Mrs. Griesbach was for Calgary this morning, going on to Banff and later to the Princess Patricia ranch in the Okanagan.

FRIENDS PRESENT MISS SMITH WITH LOVELY GOLD WATCH

The vestry room of St. Andrew's church, Jasper, was the scene of a pleasant social gathering last Saturday evening when the choir and several of the parishioners presented Miss F. Smith with a lovely gold watch.

Miss F. Smith, the soprano soloist with a gold watch as a token of remembrance on her leaving the choir to join the nursing staff of the Royal Alexandra hospital. After a short address by the Rev. Asby, Mr. Robinson made the presentation, followed by applause and the singing of "She's a Jolly Good Fellow," by those present. Miss Smith made a graceful reply, thanking the choir for their kindness and remembrance.

An impromptu program was rendered and songs were sung by Miss Gill, Miss Smith, Amy Cooper and Misses Seale, Gilmore and Pope.

Mr. H. Mitten, organist and chor-master of the church, accompanied on the piano while some excellent piano solos were rendered by Mr. J. Coutts. Refreshments were served and the singing of "Auld Lang Syne" terminated a very enjoyable affair.

FENCING BOUT PART OF PROGRAM OF Y.W.C.A. GIRLS TOMORROW NIGHT

A short fencing bout is to be given as part of the program of closing exercises of the Y. W. C. A. physical training classes, which will be held in the Empire auditorium tomorrow evening at 8 o'clock.

Mr. Scott has been generously giving his services throughout the session to a small but enthusiastic group of Y. W. C. A. members. He is intended to give a short display tomorrow evening with Miss F. Gaines, the senior fencing pupil, who has attended the class for the two sessions it has been held.

WOMAN APPOINTED COURT PSYCHOLOGIST

New York, May 25.—Mrs. Mabel H. Kirk of East Orange, N.J., was appointed psychologist to the Essex county courts. She is the first woman to hold this position in the Empire.

Her duty is to examine offenders for mental weaknesses and defects, particularly juveniles, and to determine how far psychological conditions affected their criminal tendency. A report will be made to the court on each case before sentence is imposed. Mrs. Kirk will receive \$1,000 a year.

Definitions

Alcohol—A liquid good for preserving almost everything except secrets.

Able—A dignified bunch of muscles, unable to split wood or spit ash.

Billions—A liver complaint often mistaken for pity.

Cinder—One who is injured in a street fight.

Bystander—One of the first things to catch your eye when traveling.

Collector—A man whom few care to see but many ask to call again.

Li—A very poor substitute for the truth, but the only one discovered up to date.

Date Pies

No. 1—One pound of dates. Take out stones and add ½ pint of water; let boil till dates are soft, then add one quart of milk. When comes to a boil strain and add one cup of sugar, three eggs, one teaspoon flour. Makes two pies.

No. 2—One-half pound of dates, two eggs, 2-3 cup sugar, milk enough to make a putty with for custard. Bake dates until you can smash them with a spoon, stir through a colander to remove stones, then stir all of the water out and bake with one crust.

Children Cry FOR FLETCHER'S CASTORIA

MILADY'S PAGE

Daily Fashion Talks

BY MAY MANTON

FOR THE FASHIONABLE DANCE

DANCING frocks this season are really ravishing but never was a prettier one worn than this. It is made of net over shimmering white mesaline and the giraffe and ribbon are of silver gauze while little silver trimming edges the skirt. The skirt is straight but there is a tuck in the tunic in which ribbon is inserted and, when the dress is worn, the fullness above is just sufficient to give it the appearance of a tunic. The tunic is a simple one, a little longer at the back than at the front and finished with a draw up. The collar and silver are daintiness itself, just by using over the moonlight effect that every girl loves, but the color scheme can be varied indefinitely. For a brunette, a brilliant effect could be obtained by using net over yellow and, as a matter of course, any preferred color can be substituted for the foundation while there is no need to restrict the material for the dress itself to net. It can be made of any material that is thin enough to be made into a tunic and that means many today. Chiffon, tulle, net, lace and crepe de chine suggest themselves at once and if like the tunic can be of crepe or net while the remaining gown of soft silk. The new taffetas are thin enough to be treated in this way. The Standard brothers, who open the show, give a varied exhibition of strength and acrobatic ability that makes them one of the greatest of their kind.

For the 16 year size, the dress will require 7 yds. of material, 27 1/2 yds. 36-44 yds. 14 1/2 yds. wide, with 1 1/2 yds. of ribbon 8 1/2 yds. wide for the giraffe, 6 1/2 yds. of silver lace. The width of the skirt at the lower edge is 17 1/2 yds.

The May Manton pattern of the dress 8135 is cut in sizes 12, 14, 16 and 18 years. It will be mailed to any address by the Fashion Department of this paper, on receipt of ten cents.

OLD FASHIONED ELOWER GARDEN

No doubt many there are who remember and have stowed in the unused corners of their mind delightful memories of some old-fashioned garden somewhere. It might have been the garden of a grand old manor, or a small cottage garden, or a garden in the heart of a city, but it was a garden and it might have been the garden of a grandmother or the garden of a grandfather. It is a garden that is longed for and it is a garden that is being recreated in the modern garden.

A very satisfactory perennial is the sweet William. This should be sown in May or even later, and thinned in the same way as alyssum. Sweet William will bloom in June and July of the following year, and grows to a height of one and a half to two feet. It is a hardy plant and its flowers are good old-fashioned flowers. The hardy white phlox is especially sweet and delicate.

And you must have antirrhinum in your garden, only you will probably call it snapdragon. As your grandmother did, this is one of the old-time blossoms which has been in the garden since the days of the first settlers. The delicate pink and the white stalks of the modern fairy-like flower are far more attractive than the once-popular variety of two feet high, and the new snow flares have larger and more delicately perfumed blossoms. The ground must be very rich and they must have a warm spot in the garden if you wish the best results from your antirrhinum.

Canterbury bells! Don't you remember, when you were a child, waiting for the first bell to ring? The first bell to ring and make them ring? The only thing I have ever heard from them, however, is the sound of their bells. The Canterbury bells are a very old-fashioned flower and they will give you a rich color all summer long.

Who would dream of an old-fashioned garden without poppies? Plant a few for the annual variety in April, and the garden will glow with their gorgeousness until frost.

Lady allipers, or, as the seed catalogue calls them, balsam, will grow two feet high, and a row of them on each side of the path standing in front of the house, will give you the most attractive features of the garden. It was the old-fashioned slipper with which grandmothers used to make the quality

Theatres and Picture Shows

INTERESTING PROGRAM BEGINS FOR THE WEEK AT THE PANTAGES

Almost as interesting as the story of their taking is that of the finishing of the feature reel of pictures which headlines the bill at Pantages today. The trials and tribulations of the management and the photographer have been busy preparing them for the screen this past two weeks have been many.

Even to the average theatergoer who knows little of the work of manufacturing moving pictures it will be readily understood that the making of a thousand feet of film far away from the theatre, in this great industry is no easy matter.

But Friday evening last everything was in the hands of the camera. The matter part of the film was being made in the picture camera. The trials and tribulations of the management and the photographer have been busy preparing them for the screen this past two weeks have been many.

Local sign painters were at once set to work with the result that when Saturday evening's train pulled out for the southern city the local photographer arrived with some 40 sheets bearing printed captions left for Calgary to do the photographing. Arriving back Saturday evening he and his assistants have been working hard and day to prepare the reel for Pantages patrons today.

Hendricks Belle Isle and company, with seven clever people in a mixture of singing and comedy, present the greatest of Scholastic travesties, "The Schoolmaster."

As an added feature Little Jewel and her continent-wide fame and popularity present an act that is new and away from the usual marionette attraction.

Cooper and Hildeau, with character singing in which they feature comedy, Italian and other varied personalities, make some quite original and have plenty of comedy.

The American sawdust, four harmonica stunts, mix melody and variety through some 15 minutes of entertainment.

The Standard brothers, who open the show, give a varied exhibition of strength and acrobatic ability that makes them one of the greatest of their kind.

"WRONG FROM START" TITLE OF LAUGHABLE BIT OF FUN AT EMPIRE

The second of Everett Shinn's travesties on the old-time melodrama that our fathers laughed over will be the first of the Orpheum vaudeville and variety bill at the Empire the first half of this week, starting with a big laughable bit, "Wrong from Start," which is a travesty of the old-time melodrama. The title of this laughable bit of fun, and Orpheum followers are assured of considerable amusement when this sketch is staged here. It is played by an excellent company.

When comedians are mentioned Julius Tannen must be considered first because he is undoubtedly the merriest man in the American vaudeville turf. His quick, telling delivery makes his monologue thoroughly enjoyable throughout.

Three sisters who look alike are a Wholen Trio, headed by Doris Wilson, a charming little actress. Mirrors are used extensively, and the illusion created adds considerably to the merit of the act.

Especially timely is the turn of the Gardiner Trio, ball-room dancers par excellence. They are two good-looking young men and their repertoire is composed of a variety of novelty dances.

A young Englishman who is as much at home on a tight wire as on terra firma is Paul Gordon, who performs a series of astonishing feats. Fred Frost Crowell is an attractive young man who possesses a well trained voice and a good sense of humor. He provides the thrills of the bill in mid-air.

"THE RUSTLERS" ON TODAY AT LYCEUM; A WESTERN DRAMA

"The Rustlers" a play that was formerly used as a starring vehicle for Duster, Harum and one or two other well known actors whose names have been linked with striking western dramas, will be the attraction at the Lyceum all this week and including Monday, Wednesday and Saturday matinees.

From the role of the hero of "Where the Trail Divides" last week's offering at the Lyceum, R. E. Brady will step into the part of a villain this week—somewhat of a difference when the utterly despicable character of Fred Hilda is realized.

The blue larkspur has always been a well-loved plant, and the pink variety is also much in demand for the old-fashioned garden.

Mignonette, sweet peas and pansies are always conspicuous in the old-fashioned garden. Forget-me-nots, which perpetuates itself from year to year, should add the delicate blossoms to the garden, and the forget-me-not, which is a perennial, will give you the most attractive features of the garden. It was the old-fashioned slipper with which grandmothers used to make the quality

FASHIONS AND FANCIES

SPLITTING PAINS IN THE MUSCLES

DRIVEN OUT QUICKLY BY "NERVILINE"

Rheumatic Pains Go—Suffering Ceases—Cure Comes in Even Chronic Cases.

For aching bones and sore muscles nothing will soothe away the pain like Nerviline.

For nerve-racking twinges in the muscles, for torturing backache or lumbago, you'll find Nerviline is full of amazing power.

You see, Nerviline has the power—its about five times stronger than ordinary remedies, and can penetrate wherever it is needed. It contains juices and extracts of certain herbs that give it strange power to drive out congestion, inflammation, or pain.

You are safe in using Nerviline. Just rub it on—it won't blister or burn, and can do nothing but good.

Whenever there is pain or suffering Nerviline will go and will drive it out. It penetrates to every cell of a sore muscle. It sticks to the heart of every stiff sore joint; it searches out every part of rheumatism quickly.

Give Nerviline a trial. See how fast it will limber your lame back, how quickly it will cure neuritic headaches, how fast it will break up a bad cold or ease a sore throat.

The best family pain-remedy ever made is Nerviline. Forty years of erect success proves this.

For emergent ills, when the doctor isn't handy, there is nothing better than the 50c. family size bottle; trial size 25c. all dealers or the Catabarone Co., Kingston, Canada.

TRIED COOKING RECIPES.

Strawberry Sponge. Try this dessert: Take sponge cake, cut in slices, put preserved strawberries between slices and pour the juice over it, then cover with whipped cream and dot over the top with marshmallows.

Oxford Salad. Small leaves of lettuce 3 to each, guest. On each slice of oranges, cut not too thin. On each slice of orange place a strip of canned red sweet pepper. Over all pour a dressing made of the juice from ends of oranges, a little of the pepper, salt and vinegar. Beat very pretty and so good.

Riced Cheese Salad. Mash a cup of cheese or a home-made cup cottage cheese with ½ cup whipped cream, or stiffly beaten egg white. If later lather is used add 1 tea-spoon of butter and mix thoroughly. Add salt to taste and run through a potato ricer into a bed of lettuce leaves. With a silver spoon, make a boiled dressing, sprinkle with paprika and serve very cold.

Wonders. Beat 1 egg, a little milk and enough flour to make stiff. Roll out very thin, cut with a biscuit cutter and fry in hot fat 1 minute. Serve with sirup, cream and jelly, or a delicate pudding sauce.

Bride's Cake. Sift ¼ cup of powdered sugar and cream with ¼ cup of butter stiff twice ¼ cup of flour; at the second sifting add 1 tea-spoon of baking powder and a pinch of salt, ¼ cup sweet milk, whites of 2 eggs beaten to peaks. Bake in 15 minutes. Beat the mixture from 20 minutes to half an hour.

Prune Pie. Cook ½ pound of prunes in a double boiler until very tender. Remove the stones, sugar to taste, add just a pinch of cream of tartar and wash thoroughly. Beat the whites of 2 eggs and very gradually beat or rather fold in the washed prunes. Make a rich pie paste, line a plate and bake. When nearly done take out, fill with the prunes and bake about 15 minutes. This should be eaten very cold with whipped cream piled lightly over.

Pancake Pudding. Sift ¼ cup flour into a basin, add ¼ teaspoon of salt, two well-beaten eggs, ½ a pint of milk and one tablespoonful lightly over.

LOCAL ATHLETES SEEKING HONORS IN OTHER TOWNS

Edmonton's Best Runners Are Today at Calgary Sports and at the Fort Annual Sports

The annual athletic meet is being held at Fort Saskatchewan today. This is always a big event and this year promises to be one of the best in its history. Special teams are being run from Edmonton and a large crowd is sure to go along for the day's outing. Two tug-of-war teams will be played between Edmonton teams and a large program of track and field events will be run off. There are all events from the 100 yards to a three mile run and lead V. M. C. A. athletes are expected to carry off most of the prizes which this year are better than ever in point of value.

The Y. M. C. A. has also sent its relay team to Calgary to compete in the Canadian games there. The team is composed of Hurlburt, Sheppard, Buchanan and Rhodes and besides competing in the mile relay race, each of the men will enter the jumps and the short sprints and may be expected to clean up the Calgary athletes as per usual.

This morning at 10:30 a program of military sports are being held on the golf course. These events are open only to members of the 101st regiment and boy scouts. There will also be a canoe regatta at St. Albert.

CALGARY LOSES TO VANCOUVER

Chinook Lacrosse Team Totally Outclassed at Coast 12 to 0—Return Game Tuesday.

Vancouver, May 25.—Completely outclassing the challengers in every department of the game, the Vancouver A.C. team Saturday defeated Calgary by a score of 12 goals to nil. Only in the first quarter did Calgary furnish any opposition. From the second quarter until the finish their goal was nil. Only in the first quarter did Calgary furnish any opposition. From the second quarter until the finish their goal was nil. Only in the first quarter did Calgary furnish any opposition. From the second quarter until the finish their goal was nil.

Three protests were handed to the officials in charge. Vancouver charged that Marshall, of Calgary, had played a professional game here in 1931 and for this reason Calgary dropped him from the line-up. Calgary came back with two protests, one that they knew something about Marshall, and the other lodged against the referee, who the challengers claimed was not officially appointed. The teams lined up as follows: Vancouver—J. Davis, Campbell, Macdonald, Carter, Gordon, Painter, Kendall, J. Painter, Freedman, Knight, Wright, Tucker. Calgary—O. Curless, D. McLeod, Hetherington, Reynolds, Miller, Russell, Armstrong, J. Curless, J. Miller, H. Curless, Kerr, Lewis. Referee—G. Spring.

ESKIMOS HIT AT ALL-SCOTING SHUT-OUT AGAINST RED HATTERS

"Mother" Dunn Used Three Pitchers, but Onslaught Continued Until Record Score Was Piled Up—Lemieux and Nordyke Featured with the Bat—Eskimo Infield Was Air-tight and Outfielders Grabbed Everything, Played Errorless Ball—Score was 16-0.

In their determination not to be pushed over the board further than third place in the standings, the Eskimos Saturday evening presented a beautiful shut-out to the Mad Hatters. My-oh-my, what a game, 16 to 0. A new record score for shut-outs this season. And the Eskimos played real, real, real baseball. They belted the offerings of three Mad Hatters, but wide and odd. They had the visiting fielders chasing all over the lot for the little white sphere.

The Winning Lineup
The Eskimos played great, and ended up with a terrible score that the game became very thrilling before the final. The local infield was all right. Matts played second, Rueli short and O'Brien third, and they grabbed everything in sight. This lineup will likely be the regular one from now on, as Redmond shows no sign of discarding his right arm, the one that in which Saturday's team played shows it to be about the best that can be produced.

Eskimo Hot Clouting
Of course, the big feature of the day was the heavy clouting of Eskimo sluggers. Two-base hits and tried were almost as plentiful as one-base hits. Two-base hits and tried were almost as plentiful as one-base hits. Two-base hits and tried were almost as plentiful as one-base hits. Two-base hits and tried were almost as plentiful as one-base hits.

Lemieux Batted Well
A very notable feature of the contest was the manner in which Lemieux netted the ball on the nose for three runs, single, double and three-bagger were his contributions. Nordyke was another who got into the limelight in the batting. With two three-baggers and a single for five times up. Everybody hit the ball hard. Fortier, O'Brien, Tovey, Goldie and Rueli all carried their batting eye with them. Another

AMATEURS CRICKET CLUB DEFEAT THE COLUMBIANS BADLY

The league match between the above clubs took place on Saturday on the south side exhibition ground and ended in a most decisive win for the Amateurs by 188 runs and 4 wickets. The Columbians batted first on a good wicket, but made a poor showing against the bowling of A. E. Parker and J. P. Perraton, the whole side being dismissed for 23 runs. C. Neate was the only batsman to reach double figures.

The amateurs started their innings with W. Dixon and E. Parker, but with no runs on the board Dixon was foolishly run out by E. Parker who pulled for an impossible run. Two other wickets fell quickly but on E. Parker joining Jennings, the match was soon won, both batsmen playing well and confidently. The score was taken to 72 before Jennings was splendidly caught by Neate in the long field for a well played 22. Six wickets were down for 104 when L. Parker joined his brother; between them the score was soon doubled and eventually by 6:30 had reached 221, the highest score in league cricket this season. L. Parker drove with great power and in his 41 not out had 7 fours and 2 threes. Towards the end interest centred in E. Parker as to whether he would hit his century, but time was up when he reached 98. Most of his runs were obtained by hard low drives and against cuts in his last ten were 11 runs, 1 five and 4 threes.

For the amateurs A. E. Parker took 4 wickets for 18 runs and J. P. Perraton 4 wickets for 2 runs, both bowling very well.

JENKINS IS NEW GOLF CHAMPION

Won British Title Saturday by Defeating Healey—Play Was Good and Witnessed by Many

London, May 25.—J. C. Jenkins, of the Troon Club, Scotland, captured the British amateur golf championship title Saturday when he defeated C. G. Healey of Port Rush in the final by 3 up and 2 to play. A large salary of enthusiastic followers the two players around the course and witnessed some very interesting play.

Jenkins alternately won and lost the first nine holes of the second round in the afternoon and reached the turn one up, his card for the 72 holes totaling 116 strokes. Healey lost the next 2 holes and at the 15th Jenkins was down. Jenkins was halved and as a result Jenkins won the match and the championship title.

Old Country Cricket.
London, May 25.—Most of Saturday's cricket matches had to be abandoned owing to a storm. Northampton however, finished the match with Lancashire defeating them by an innings and 17 runs. Cambridge defeated the third successive defeat, being beaten by Sussex by eight wickets.

Barrieau vs. Anderson.
Vancouver, May 25.—Frank Barrieau and Bud Anderson who will meet at Stevenson tonight in a scheduled fifteen round contest for the welter weight championship of the Pacific coast finished training Sunday. Both men are down to 145 pounds.

Connell & Grigg, Chown Hardware Co.
Demonstration of our Hotpoint Appliances in Old Presbyterian Church, Electric Week, May 26 to 30, held under the direction of the City Electric Light Dept.

Electric Show and Demonstration
(Under Direction of City Elec. Lt. Dept.)
May 26th to 30th
OLD PRESBYTERIAN CHURCH BUILDING
Opening Tuesday, May 26th, 8 P.M.
Daily 2 to 5 P.M. and 8 to 10:30 P.M.

Use Electricity for Cooking During the Hot Summer Months

Why roast over a Hot Stove when all your meals can be cooked by Modern Electrical Appliances?

Why iron in the old fashioned way—broiling in a hot Kitchen, when an Electric Iron will do the work for you quicker, better and cheaper.

FREE DEMONSTRATION in Old Presbyterian Church, corner of Jasper and Third, May 26th to 30th.

Cook by Electricity

"Man works from sun to sun;
But woman's work is never done."

Electrical Cooking will make your Housework a real pleasure. Why not lighten the household burdens as much as possible during the Hot Summer months?

Attend the Demonstration, May 26th to 30th.

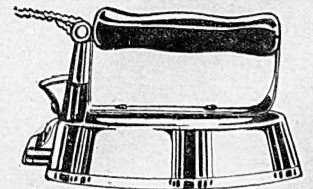

Universal Electric Home Needs

Manufactured by Lan ders, Frary & Clark.

REVILLON WHOLESALE LTD.

Distributors.

FREE DEMONSTRATION, May 26 to 30th, Old Presbyterian Church

Facts About Hughes Electric Stoves

Where are these stoves used?

The City of Edmonton Public Schools use them in their Domestic Science Classes. In Winnipeg, there are over three thousand of these stoves in use. The University of Chicago uses them in the School of Domestic Science. The Ohio State Normal College uses them in their School of Domestic Science.

The British, India, South Africa, Japanese Governments, Argentine Republic, all use the Hughes Electric Stoves.

What would the average monthly bill be for a family of say, four or five in Edmonton? At 4c per kilowatt, cooking breakfast, dinner and supper for one month, bill would be approximately \$1.50.

The above will be effectively demonstrated at the Electrical Show this Week.

Electric Household Helps

ELECTRICITY is the model servant, always ready for any household task. Every woman approves the cleanliness, safety and convenience of electric household appliances. They save her miles of tiresome steps in cooking, ironing, sewing, washing and other household duties.

The electric way is clean—no soot or ashes. It is absolutely safe because there is no flame to endanger clothing and lives. It is convenient because electric devices are always ready for use.

Handsome in appearance and highly finished, Westinghouse Electric household appliances are an ornament to any dining table. As presents they are highly appreciated.

Another point—each piece of Westinghouse Electric Ware described in the following pages has its own individual heater. There is no waiting—all can be used at once.

Westinghouse Electric Ware has won an enviable reputation in the household for the same reasons that Westinghouse Electric power motors, transformers, meters, generators and other machines are considered the best in all industries—Westinghouse goods are built to last.

Housework is a Real Pleasure When You Use Electricity for Home Cooking

Do you realize the convenience, the cleanliness, the real economy of electrically heated household appliances? And do you know you can have them as willing servants, doing your housework—your ironing, cooking and heating?

Look over the list of electrically-heated appliances at our store. Any of these can be used on a lamp socket. Simply take off the light bulb and screw in the socket plug which is furnished with the appliance. On the other end of the flexible cord is a switch plug. Push this into place and the appliance begins to heat immediately. The moment you have finished—pull out the plug—and the flow of current stops—also the expense!

So you see the cost of using these appliances is very low indeed. It is hardly to be considered when one also includes their great convenience and handiness.

Convenience and economy, however, are not the only things—think how cleanly and sanitary they are.

—think how much better coffee is, when percolated in an electric machine—how crispy and appetizing the toast is, that's made on an electric toaster—and as for chafing dishes—well, you'll never really know the pleasure of using a chafing dish until you have tried El Chafé.

Now you can afford to do your regular cooking by electricity. El GIGOSTOVO makes this practical for the first time.

The Hotspot Stove, which utilizes the glowing-coil-and-reflector principle, is so effective with so little current that it does the kitchen cooking with the small amount of current from any lamp-socket.

Notwithstanding this, it sells at a lower price than any other electric stove of equal capacity.

The Passing of the Household Drudge

There is an old saying that a woman's work is never done. There is no six o'clock whistle for her.

That's true; there are duties and responsibilities in the household that no right on for twenty-four hours a day; and, yet—

The household drudge, the woman who slaves from morning till night with never an hour for herself, is rapidly becoming a thing of the past. A woman has no right to make herself old and careworn with hard manual labor nowadays, because—

There are better and quicker ways of doing things; ways of saving time, lightening labor and doing away with household drudgery.

Most women today find time to spend a few hours now and then at church, at the club, visiting friends, attending a course or in other enjoyable or profitable ways.

These women are mostly good housekeepers because they know how to attend to the housework and to do it right, with the least expenditure of time, energy, and money.

By carrying on another operation above the coils, baking your cakes, frying your potatoes, etc.

Chops

Chops are broiled in El Grillo the same as cutlets except that ordinarily they are not breaded. Turning occasionally will prevent all loss of the rich juices of the meat.

Spaghetti with Tomato Sauce
Cook the spaghetti in boiling water for twenty-two to twenty-five minutes or until tender. Sauté half a can of tomatoes with a small piece of bay-leaf and if you want a smooth sauce strain through a sieve, but this is unnecessary. Add one teaspoonful of sugar and one teaspoonful of salt, one teaspoonful of onion extract and paprika to make it as hot as desired. Stir in one tablespoonful of corn starch dissolved in hot water and one tablespoonful of butter and let it boil up. Turn this sauce over the spaghetti and sprinkle a teaspoonful of grated cheese over the top.

Electric Week in Edmonton.

COOK WITH ELECTRICITY

Not many years ago women were cooking with wood and coal for fuel. Building the fire was an every day task. Then came the gas range, and one had only to strike a match, and the fire was burning. But what would our grandmothers have thought of cooking without either fire or flame! To start the cooking by turning a switch, to bake a cake in an oven heated by some mysterious current, instead of by open flames, would have seemed as impossible a thing to them as did the thought of flying to our grandfathers.

But cooking by electricity is new enough for every woman to be familiar with the old fashioned ways, with all the dirt and soot, bother and delay, discomfort and danger incident to flame cooking. And how she welcomes a relief from all these annoyances.

The woman who cooks with electricity works in comfort. The room is neither overheated by a hot coal range nor full of unpleasant fumes from gas. She builds no fire—doesn't even light a match. A turn of the switch and the heat is on.

WARMER WEATHER BRINGS BETTER GRADE OUTLOOK

All Canadian Points Report Improvement Following Advent of Early Summer

STAPLE COMMODITIES WELL UP TO NORMAL

Fair Progress in West With Prospects of Early Stimulus.

New York, May 25.—Despatches to Daily review from many sections of R. G. Dunn and Co. in the leading trade centers of the Dominion of Canada report generally improved conditions, especially in retail lines, owing to the appearance of warmer weather. Montreal reports that summer weather has been helpful to retail trade in dry goods and wearing apparel, and wholesalers note rather more doing in getting up ways. There is a fair movement of groceries, but there has been little or no recovery in footwear and the iron market continues depressed because of the light inquiry for locomotives, cars and other railroad material.

Improvement General

Better retail conditions are reported in wholesale trade at Toronto this week, reflecting the more active retail movement of seasonal merchandise due to the warmer weather. Orders for fall goods in many lines are in more liberal volume, and decidedly improved sentiment regarding the future prevails among merchants and consumers. Hamilton reports that while business on the whole is still quiet, favorable weather has caused a considerably more active movement in some lines.

Palr progress is being made in the far west and northwest with the movement of commodities stimulated by favorable weather.

At Winnipeg a normal business is being transacted in most lines and while there is no great activity the trend seems to be towards betterment.

Groceries, provision and hardware are in good demand and a fair movement is noted in dry goods, clothing and footwear.

Merchants generally at Regina report the current demand for reasonable merchandise an satisfactory.

At Calgary

While somewhat quiet conditions still prevail at Calgary, merchants are apparently are satisfied with the situation and are looking forward to a brisk business within the near future.

Conditions have shown improvement at Saskatoon of late and the movement of staple commodities is well up to normal.

While merchants at Vancouver are still conservative in buying, the fine weather is stimulating trade to some extent and improving conditions in the lumber industry are expected to have a generally beneficial effect.

Gross earnings of all Canadian railroads reporting to date for two weeks in May show a decrease of 14 per cent as compared with the corresponding period of the same year.

Commercial failures in the Dominion of Canada this week numbered 25, against 40 last week and 23 the same week last year.

MORPHINE HABIT SPREADS IN RUSSIA

St. Petersburg, May 25.—Universal morphine is spreading among the inhabitants of the Russian Empire. The frightful conditions already prevailing there were described today by Dr. Stankovitch, director of the psychiatric section of the Medical society of this republic.

The disease embraces all classes and has spread into the villages. Old men and children as young as nine years old have become victims. In the prisons of the Russian Empire of each 1,000 inmates are certified as morphine victims.

The drug is sold all over the country by Chinese peddlars, and the prohibition of its sale by apothecaries has had no effect.

A strange feature is the habit of those who have money and have given way to the drug of furnishing it to those who are poor and needy.

There are secret clubs which propagate the habit. People may be seen in the open streets injecting morphine into themselves.

Dr. Stankovitch speaks of men collecting twenty to twenty-five rubles a day and buying morphine for those who are craving for it. In the town of Blagovestchensk alone he reports that from 1,500 to 2,000 grammes of morphine are sold daily.

TENDERS

Tenders are invited for the erection of additions to the North Edmonton School, to be delivered before 5 o'clock, Thursday, June 4th, 1914, accompanied by a set of plans, and accepted at the office of the undersigned, where plans and specifications may be obtained. The lowest or any tender not necessarily accepted.
